What is WINDPOWER?

WINDPOWER is the premier annual event for wind energy executives, experts, and professionals to gather for networking, education sessions, and onsite product and service shopping. This unique event is a must-attend for all of the industry’s key decision makers. This is your opportunity to power business connections, develop lasting relationships, and make that next big business deal.

2018 ATTENDING COMPANIES

2018 EXHIBITOR LIST

2018 has been a historic year as wind power surpassed 90,000 MW installed and the AWEA WINDPOWER Conference grew 10% making it the largest show in 5 years. The wind industry’s powerful growth is poised to continue in 2019, with more than 37,700 MW of wind capacity under construction or in advanced development.

As we move toward the 2020s, wind energy will continue to thrive through collaboration with technology, other sources of clean and traditional energy, policy makers, innovators, farmers and ranchers, rural communities, big cities, and the list goes on.

There is a great deal of excitement and passion for wind energy deep in the heart of Texas. In May 2019, the future begins in Houston, the energy capital of world, where leaders from the wind industry and across energy sectors will gather at WINDPOWER.

In Houston, we will take the next steps forward to powering that future, together!
Why exhibit at WINDPOWER?

For three days every year, the WINDPOWER Conference & Exhibition delivers a valuable opportunity for exhibitors to connect with thousands in the wind energy industry who seek new products, information, and connections to propel their businesses forward. WINDPOWER is still the largest wind energy tradeshow in the Western Hemisphere.

On the show floor, exhibitors will have the opportunity to meet face-to-face with wind energy leaders who are moving the industry into 2020s. Discover how your company can help wind leaders stay on pace with the ever-changing energy landscape.
