Hotel has an existing program to purchase renewable energy, carbon offsets or renewable energy certificates. If yes, please indicate the percentage of the hotel’s total energy use that is provided by renewable energy (either onsite generated or purchased offsite, including RECs):

Hotel agreed to contract clause to purchase wind energy renewable energy certificates to offset power usage during WINDPOWER 2019.

Hotel’s energy usage is tracked on a regular basis (at least quarterly).

A towel reuse program is in place that includes housekeeper training and periodic checks.

A linen reuse program is in place that includes housekeeper training and periodic checks.

If yes, linens are changed every 3 days by default except upon guest request or check-out.

A recycling plan is in place which recycles at least two type of waste, and includes staff training, and periodic checks.

At least 75% of lighting is energy efficient (LED or CFL) in guest rooms, public areas and back of house.

Staff training is given at least once a year on understanding and implementing green practices (both FOH and BOH).

Information is provided for guests on your property’s green practices.

A green team is in place at the hotel and meets at least quarterly.

Electronic (paperless) check-in and check-out is offered to the guest upon arrival or is the default practice (paper bills only provided upon request).

Smoking is prohibited within the hotel.

Please indicate Hotel’s level of TripAdvisor GreenLeaders Label Designation (None, GreenPartner, Bronze, Silver, Gold, Platinum):

The hotel has achieved an additional sustainability label or certification such as Green Key, LEED, ISO 14001, ENERGY STAR, a national, provincial or state green lodging designation or another third party verified program and is currently in good standing with the program(s).

If yes, please indicate which programs or certifications:

Clearly marked recycling receptacles are present in the lobby and other main public areas.

The diversion rate of waste diverted from landfill is over 50%.

Food scraps are composted.

At least 90% of guestrooms have low-flow showerheads (2.0 gallons per minute).

At least 90% of guestrooms have low-flow faucets (1.5 gallons per minute).

At least 90% of guestrooms have efficient toilets (1.28 gallons per flush, dual flush, or composting toilets).
